

\\Gfalls2[E-Drive]Projects\GE_Hudson\CU_Acceptance\Working\GIS\Residual_Cores_2013_11x17.mxd

Notes:
All residual locations shown have been adjusted so that no target location is within 20 ft. of a boundary (CU, slope, offset or shoreline)

Shoreline areas developed from nearshore border created on 5/30/2013

Legend

Proposed Shoreline Cores

Proposed Residual Cores

Shoreline Areas Re-Shape

Design Cores

Navigation Channel

CertificationUnits

Engineering Adjustments

3:1 Slope

CARA Offset

Rip Rap Offset

Structural Offset

Dredge Prism

Feet above MSL

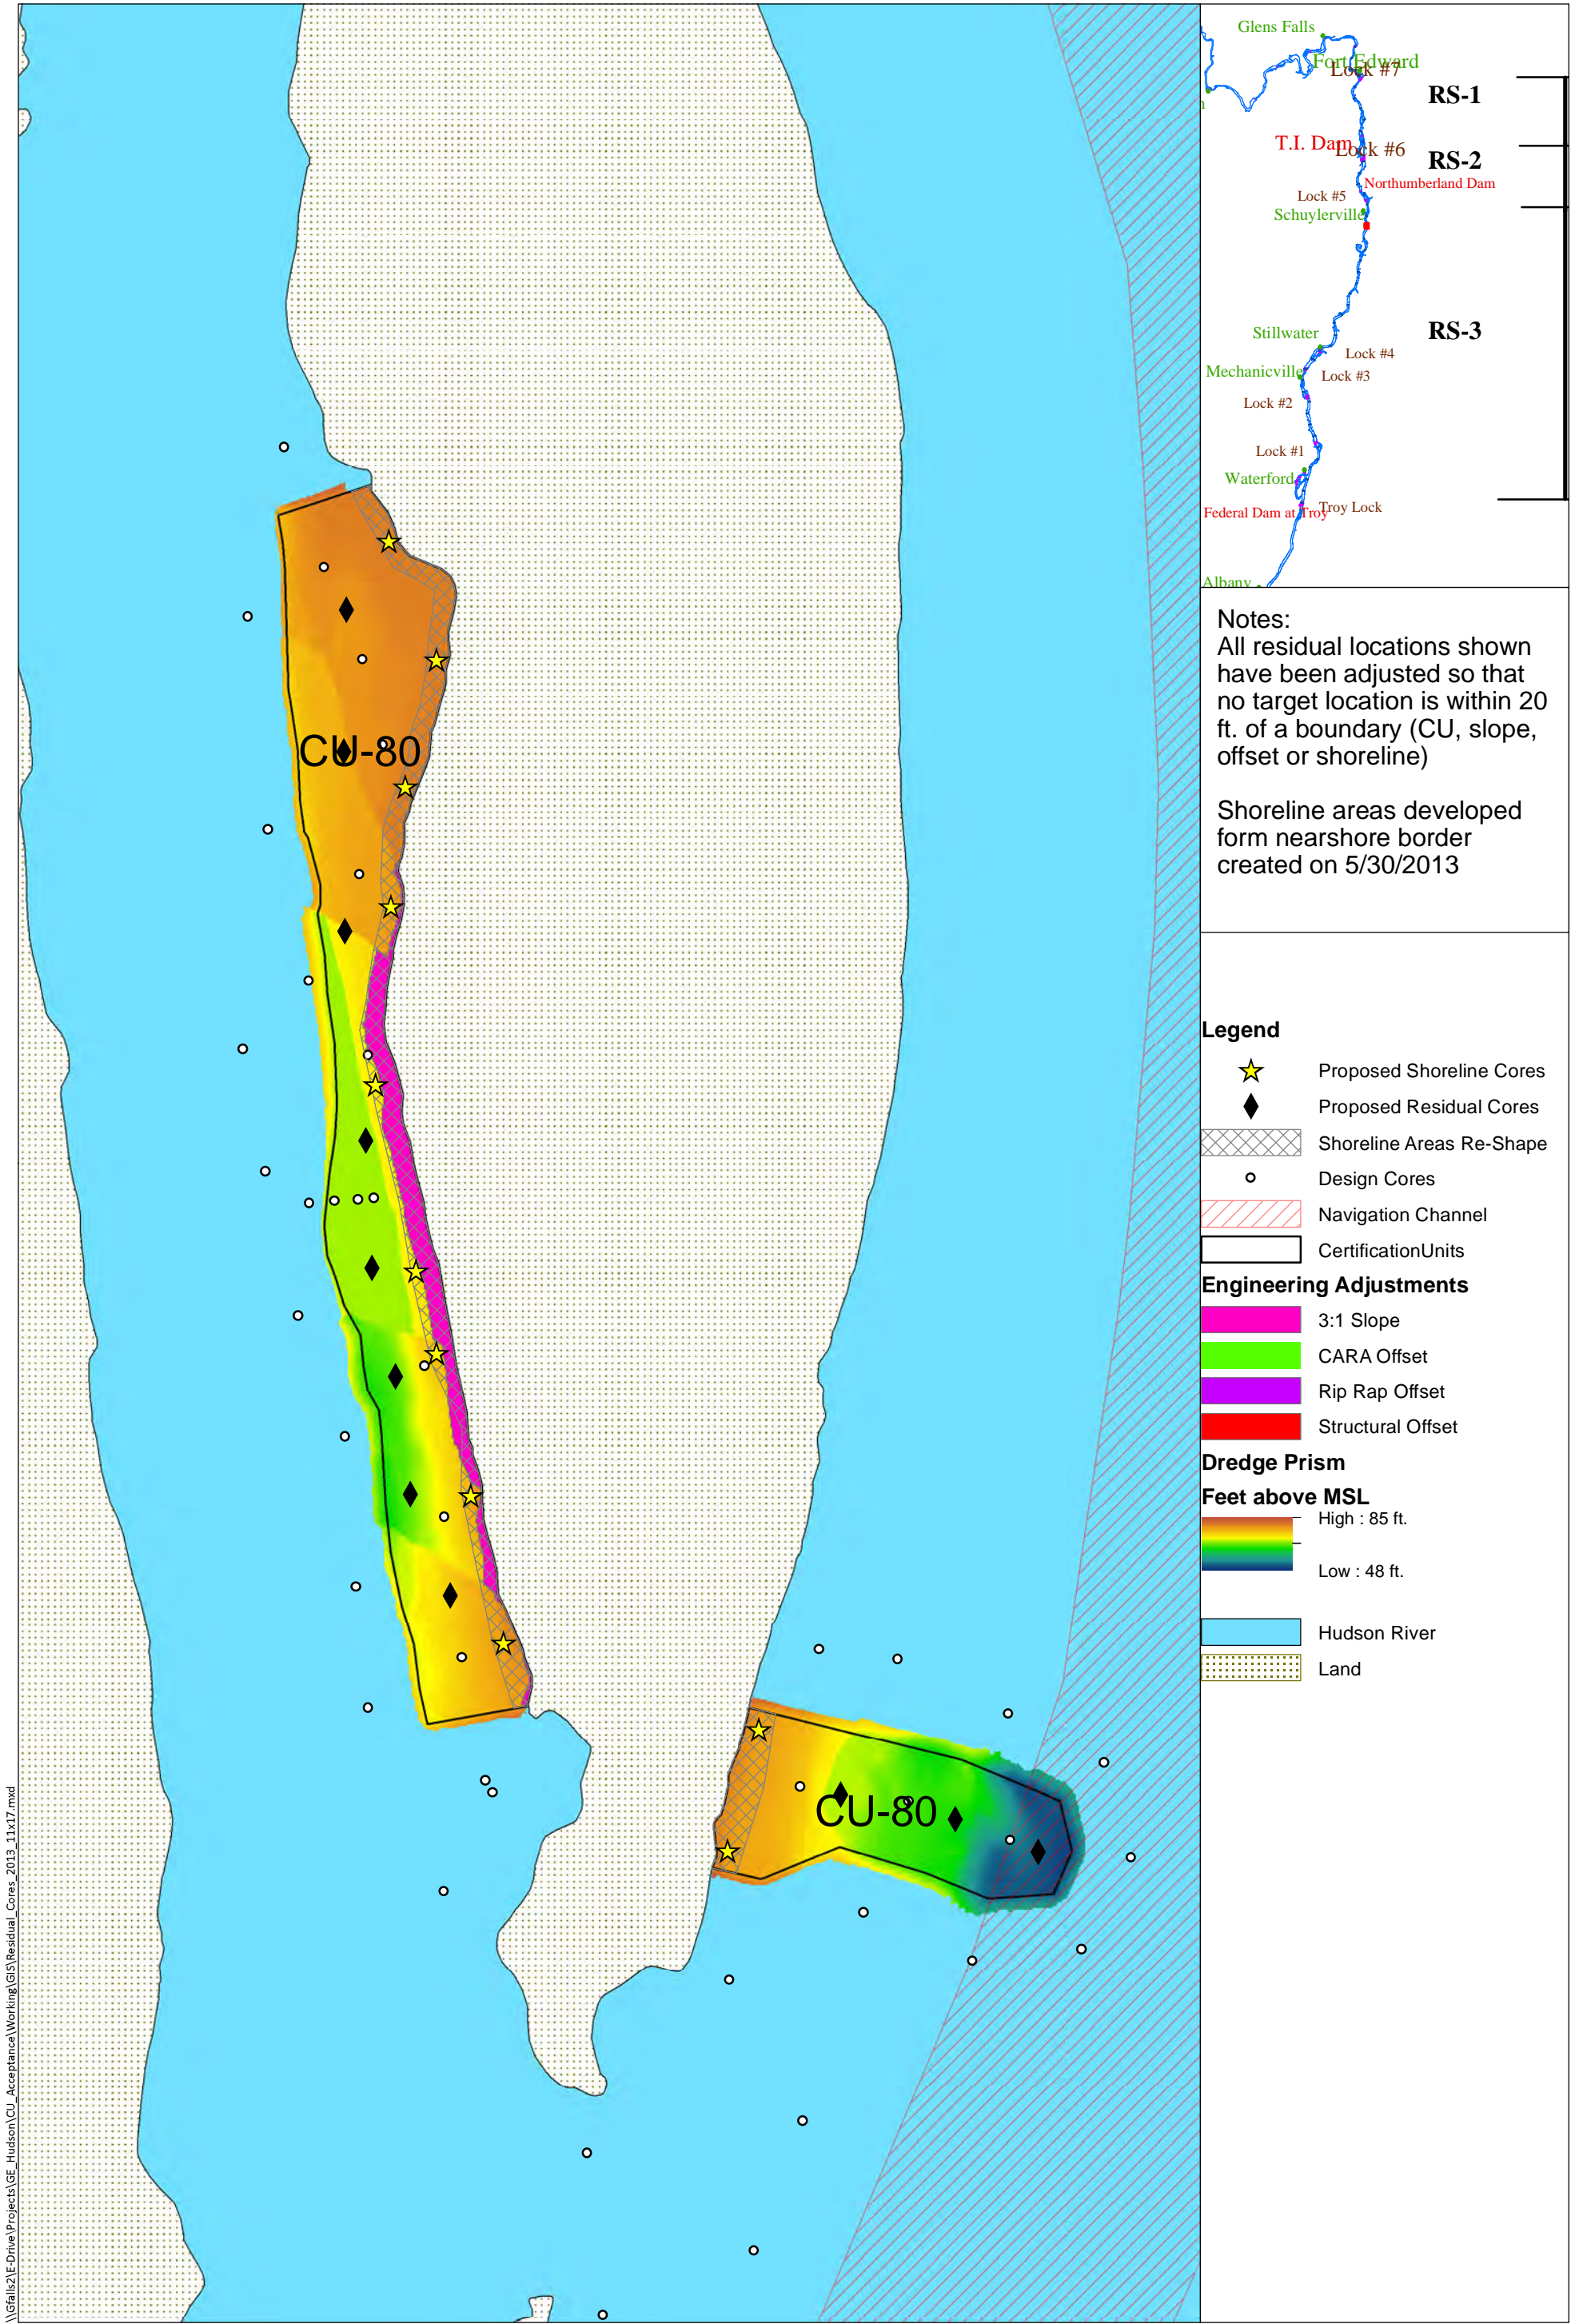

High : 85 ft.

Low : 48 ft.
